

**GDPR COMES INTO FORCE ON 25TH MAY 2018
IMMEDIATE COMPLIANCE WILL BE REQUIRED**

Dear Partners,

The **General Data Protection Regulation (GDPR)** enforcement date is set on **25th May 2018** - at which time, those organizations which will not comply with the regulation may face heavy financial fines up to 4 million euros.

GDPR brings fundamental changes in the Data Management and Protection scheme and applies to all companies or entities which process personal data as part of their activities and to all companies outside the EU offering goods / services in the EU.

The possible imposition of huge fines to the non-compliant companies, urges the need for immediate actions and changes. From 25th May 2018 companies are exposed to a potential investigation which may arise from private reporting into the authorities.

TQC Services for GDPR Compliance are focused in **IDENTIFYING** the status of a company against the GDPR regulation requirements and **PROVIDING** the necessary SOLUTIONS and guidance for meeting the requirements in a realistic and business-like approach.

Our Services are provided with the consultation and participation of our specialized legal counsels and are in line with the instructions issued by the "HELLENIC DATA PROTECTION AUTHORITY".

Our consultancy and guidance experience can provide your company with the necessary **solutions**, including the development of a full "**Personal Information Management System (PIMS)**" contained in a single manual.

In addition, should a company wish to proceed, we can also provide the necessary guidance for obtaining certification to technical standards related to personal data protection in compliance with the regulation (EU) 2016 / 679 through our services.

Feel free to contact us so we can guide you accordingly, send you a relevant offer and arrange a presentation meeting.
